RUSLAN MIRASOV

FRONTEND DEVELOPER

+49 177 839 11 02 | ruslan@mirasov.dev | www.mirasov.dev | linkedin.com/in/ruslan-mirasov | Berlin, Germany

SUMMARY

Frontend developer with **6+ years of experience** building web applications for marketing and digital agencies. Strong foundation in **JavaScript ES6+, HTML, and CSS/SCSS**, complemented by **2+ years** of hands-on work with **React, Next.js, TypeScript, and Node.js** as a freelance developer. Experienced in responsive UI development, RESTful API integration, and scalable web applications. Currently integrating OpenAI APIs to automate business logic.

WORK EXPERIENCE

Frontend Developer
02/2018 - 02/2022

Brainst (Project-Based Assignment)

- Designed and developed scalable web applications, including high-performance full-stack solutions using Next.js, React, and TypeScript.
- Worked with modern AI and API technologies, including OpenAI GPT, Whisper, TTS, ElevenLabs, and WebSocket-based audio streaming, to support automation, transcription, voice interaction, and real-time application features.
- Built complex user interfaces using Zustand, translating Figma designs into responsive SCSS implementations.
- Maintained code quality and supported team collaboration using Git/GitHub, Postman for API testing, and Slack for day-to-day communication.

Frontend Developer
02/2019 - 02/2022

Beauty Alliance (Part-time)

- Developed custom WordPress themes based on unique design mockups for projects in the beauty industry.
- Extended website functionality using WooCommerce, Advanced Custom Fields (ACF), and custom taxonomy structures according to project requirements.
- Integrated and configured Google Analytics to track user behavior and support data-driven website optimization.
- Provided monthly project maintenance, including content updates, feature enhancements, frontend improvements, and ongoing support for client websites.

Frontend Developer
02/2019 - 02/2022

Human-Touch (Project-Based Assignment)

- Contributed to client projects, including landing pages, promotional websites, and Telegram apps, based on detailed Figma designs.
- Delivered responsive and interactive frontend implementation, ensuring accurate layout reproduction and a consistent user experience.
- Worked as part of a team on projects primarily built with the .NET framework, collaborating with backend developers and other stakeholders.
- Ensured semantic markup, responsive layouts, and strong cross-browser compatibility for stable performance across devices.

Frontend Developer
09/2015 - 01/2018

Mokselle (Remote)

- Über 40 Kundenprojekte umgesetzt, darunter Promo-Websites, Landingpages, HTML-E-Mail-Kampagnen, Display-Banner sowie interaktive Quiz-Formate zur Unterstützung von Marketingmaßnahmen und Lead-Generierung. Dynamische UI-Funktionalitäten mit JavaScript, jQuery und AJAX entwickelt zur Steigerung der Nutzerinteraktion.
- Developed dynamic UI functionality using JavaScript, jQuery, and AJAX to increase user interaction and engagement.
- Built responsive, cross-browser user interfaces based on Figma and Adobe Photoshop designs, ensuring consistent rendering and stable performance across devices.

PROJECTS

InterVizo — AI-Powered Interview Platform (MVP)

GitHub Repository

Client: Digital Agency Brainst

- An app has been developed to conduct video interviews with voice interaction and to evaluate candidates' responses using AI. The platform provides a fully automated interview process that does not require interviewers. The result: efficient candidate screening at an early stage and significant time savings.
- Integrated OpenAI APIs (GPT, Whisper) and ElevenLabs (TTS) for question generation, transcription, and candidate evaluation, combined with real-time audio streaming via WebSocket to a local Whisper instance, enabling live transcription, voice command recognition, and mobile support
- Videos are stored in Firebase Storage and include audio not only from the microphone but also from the system-generated AI interviewer questions.

Technologies: React, Next.js, MongoDB, Mongoose, NextAuth, OpenAI API, ElevenLabs, WebSockets, Firebase Storage, SWR, Zustand, Zod, MediaRecorder API

EDUCATION

- **Master of Science in Computer Science**: Software Engineering — 01/2026 – 04/2028 (expected)
  Neoversity (Woolf University), Malta – Online studies
- **Web Development Bootcamp** — View Certificate — 07/2024 – 10/2024
  Spiced Academy, Berlin (Full-time Intensive Course)
- **Fullstack Developer** Course — View Certificate — 03/2023 – 01/2024
  GoIT Global, Kyiv (Online)
- **Web Developer** Basic Course — View Certificate — 01/2015 – 06/2015
  National Training Center for Programming, Moscow (Online)
- **Diploma in Mechanical Engineering** — 09/2005 – 06/2011
  Pryazovskyi State Technical University, Ukraine
  Degree evaluated by the Central Office for Foreign Education (ZAB), Germany

SKILLS

- **Frontend:** React, Next.js (App Router), TypeScript, JavaScript, Zustand, Redux Toolkit, HTML, CSS/SCSS
- **Backend:** Node.js, Express, RESTful APIs, WebSockets, PHP, Python
- **Databases:** MongoDB, PostgreSQL, MySQL
- **APIs & Integrations:** NextAuth.js, JWT, OAuth, OpenAI APIs (GPT, Whisper, TTS), ElevenLabs APIs, Firebase
- **CMS:** WordPress, WooCommerce
- **Tools:** VS Code, NPM, Git, GitHub, Postman, MongoDB Compass, Figma, Slack
- **Others:** CI/CD, Scrum, Agile

LANGUAGES

- German
- English
