Summary

- Frontend developer with 7+ years of experience in web development **(HTML, CSS/SCSS, JavaScript ES6, jQuery, PHP, CMS WordPress/MODX)**.
- Since 2024, developing projects with modern technologies such as **React/Next.js, TypeScript, Node.js, MongoDB**.
- Completed professional training (GoIT; Spiced Academy). Seeking a **long-term full-time position in Berlin** to contribute my expertise with the team.

Professional Experience

- **2019 – 2022 | Frontend Developer (Remote)**

  Marketing agency "Beauty Alliance" – Projects for beauty salons and cosmetics

  - Developed and maintained corporate websites and landing pages: HTML, CSS/SCSS, JavaScript, jQuery, PHP, Integrated websites with WordPress and MODX, including WooCommerce and ACF customizations.
  - Configured and extended WordPress backend logic: custom themes, plugins, and API.
  - Implemented integration with YClients to track customer visits and automate analytics.
  - Created dozens of interactive quizzes and mini-games (e.g. "find pairs", "collect ingredients") to boost user engagement and lead generation.
  - Provided long-term website support: monthly updates of promotional banners, adding new campaigns, and technical optimization.

- **2016 – 2019 | Frontend Developer (Remote)**

  Marketing agency "Mokselle"

  - Delivered 50+ client websites and landing pages from frontend implementation to deployment (HTML, CSS/SCSS, JS, jQuery, PHP).
  - Optimized websites for SEO and analytics (Google Analytics, Yandex Metrica).
  - Built websites with focus on semantic HTML, responsiveness and cross-browser compatibility, and implemented animations to enhance user experience.
